

Dino Jackson

Python Backend Developer

Rajasthan, India | +91 95115 24382 | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Backend-focused Python developer with experience building and deploying full-stack web applications using FastAPI, Django, PostgreSQL, Docker, and React. Skilled in REST API design, JWT authentication, database modeling, background workflows, testing, and cloud deployment on Render and AWS EC2. Seeking Junior Python Backend / Full-Stack Developer roles where I can contribute to production-ready backend systems and API-driven applications.

SKILLS

Languages: Python, JavaScript, SQL

Backend: FastAPI, Django, Django REST Framework, Flask, REST APIs, JWT Authentication, Pydantic

Databases & ORM: PostgreSQL, SQLite, MySQL, MongoDB, SQLAlchemy

Testing & API Tools: Pytest, FastAPI TestClient, Postman, API validation

DevOps & Deployment: Docker, Docker Compose, Render, AWS EC2, Git, GitHub, Linux

Frontend: React, Next.js, HTML, CSS, Bootstrap, Tailwind CSS

AI/Search Project Experience: Semantic Search, Embeddings, RAG-style Retrieval, Vector Stores

PROFESSIONAL EXPERIENCE

TrineBridge - Python Automation Developer (Contract / Project-Based)

Nov 2023 - Jan 2025

- Developed Python automation scripts for batch file processing, directory validation, and CSV transformation workflows.
- Added structured logging, error handling, and validation checks to improve reliability of recurring automation tasks.
- Standardized automation pipelines across 100+ production deliverables, improving consistency and reducing repetitive manual work.

CODEXINTERN - Python Development Intern

Jul 2025 - Oct 2025 | Remote

- Built 3 Python projects, including a CSV Analysis Tool, Flask Sentiment Analysis App, and external API integration project.
- Designed REST endpoints, handled JSON request/response flows, and debugged API integration failures.

PROJECTS

Job Intelligence Platform | FastAPI, React, PostgreSQL, Neon, Redis, Celery, Docker, Render, Pytest | [Live](#) | [Backend API](#) | [Swagger](#) | [Repo](#)

- Built a full-stack career intelligence platform for job discovery, market analytics, recommendations, resume analysis, skill gap analysis, and application tracking.
- Designed FastAPI APIs for jobs, profiles, saved jobs, analytics, authentication, and admin-only manual job refresh.
- Modeled PostgreSQL data for users, profiles, jobs, companies, skills, saved jobs, and job-skill relationships.
- Deployed the React frontend and FastAPI backend on Render with Neon PostgreSQL and added backend tests for core workflows.

Blood Bank RAG AI | Django REST Framework, Next.js, MongoDB, Sentence Transformers | [Repo](#)

- Built a Django + Next.js app for explainable RAG-style semantic search across donors, hospitals, and blood requests.
- Implemented local embedding-based retrieval using Sentence Transformers and MongoDB as a lightweight vector store.
- Added metadata-grounded results, relevance scoring, deterministic summaries, and safe no-result fallback handling.

Job Tracker | FastAPI, PostgreSQL, SQLAlchemy, JWT, Docker, Pytest, Render | [Live](#) | [Repo](#)

- Built a job application tracker with authentication, job CRUD, dashboard filtering, and CSV/PDF export.
- Designed FastAPI routes and SQLAlchemy models for managing application records and user-specific workflows.
- Added Pytest coverage for authentication, job CRUD, dashboard views, and export functionality; deployed on Render and previously on AWS EC2.

Portfolio App | React, FastAPI, PostgreSQL, Docker, Nginx, Render | [Live](#) | [Repo](#)

- Built a full-stack portfolio with project showcase, contact form, JWT admin login, protected submissions dashboard, CSV export, dark/light mode, and screenshot lightbox.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

2021 - 2025

Geetanjali Institute of Technical Studies, Udaipur, India

CGPA: 8.44 / 10

ACHIEVEMENTS & CERTIFICATIONS

- DevOps Mastery Program - Grras, 2024.
- Presented "Blood Bank Management System" at ICMART 2025, GITS; co-authored related academic publication.
